

Evaluation of the EU Policy on Animal Welfare

Introduction

GHK Consulting Ltd and ADAS UK Ltd have been commissioned by the European Commission, Directorate General Health and Consumers (DG SANCO), to evaluate the EU Policy on Animal Welfare (EUPAW) with reference to farm animals, experimental animals, pet animals and wild animals which are kept in captivity or submitted to a treatment which is controlled by humans.

The evaluation covers four types of EU action (legislation, research, communication and international activities) and is concerned with EU animal welfare actions over the 2000-2008 period only. An overview of EU animal welfare policy is available at:

http://ec.europa.eu/food/animal/welfare/index_en.htm.

As part of the evaluation we are keen to hear the views of stakeholders and are therefore requesting stakeholders to complete this on-line survey to assist us with the evaluation.

The survey is short and easy and can be completed in 15 minutes but allows you to spend longer and give more detailed explanations if you wish. When processing the results to the survey, all responses will be treated as confidential and not attributed to individuals or organisations.

The survey will remain open and online until Friday 31st July 2010.

For further information about the evaluation please visit the project website www.eupaw.eu

Notez l'utilisation de la photo d'un « bébé phoque » afin de justifier l'action de l'UE dans le domaine du bien-être d'animaux sauvages !
